### **Examiner's Amendment**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CAR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel, claims 10-19, and 21.

### **Reasons for Allowance**

Applicants' response to the last Office Action, filed December 27, 2002 has been entered and made of record.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 7, 9, 20 and 25 are allowable over the prior art of record. Claims 2-3, 22 depend from claims 1 and 20 respectively, therefore, are allowed.

Independent claims 1 and 20 recite the limitations of : satisfying following conditions: the numeric value of blue is greater than that of red and green; the numeric values of green is greater than that of red; the numeric of the blue is less than one-quarter of the red; and the numeric of the blue exceed a threshold T. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

Art Unit: 2623

Independent claims 7, 9, and 25 recite the limitations of : calculating relative weighting of the special components to classify each pixel whether the pixel representing human skin; performing a brightness analysis of each set of adjacent pixels classified as possibly human skin pixel to determine whether each set of adjacent pixels represents a curved surface; disallowing display of the image file when at least one set of adjacent pixels is determined to represent a curved surface; and arranging and comparing the pixels into leading, middle and trailing portions. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest references of Forsyth and Jones discloses method to identify human skin pixels. However, they do not teach the limitations of cited above.

In view of the amended claims and the Applicant's arguments , the rejections to claims 1-3, 7, 9, 20, 22 and 25 are expressly withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
